ABOUT ME

I am a young 24 year old, passionate and enthusiast for making a name in the field of 3D Visualization. Having a robust background in the field, I bring extensive skills and expertise in crafting stunning exteriors, interiors, and dynamic walkthrough animations. My passion for transforming concepts into immersive visualizations keeps me up in the rank. I am eager to contribute my skills and creativity to elevate projects and achieve outstanding results.

WORK EXPERIENCE

Internship

2018-2018

Arena Multimedia

I Started my first job here as a intern in the field of 3D Animation/ Walkthrough. Worked with a team of 5 people in our first project for a 3D animation/ walkthrough of the interior and exterior of a mall. Also created detailed walkthrough of the interior which includes the interior of the shops, escalators, etc. The project was to be delivered with in 1 and a half month of the starting date and the project was delivered 10 days prior to the deadline with the hard work and the dedication of the team. Developed many skills and enhanced many inherited skills throughout the project and experienced first real life project with a great team work, customer satisfaction and appreciation.

Interior Designer

2019-2019

House of Zunn

I worked here as a Interior designer through many different projects mainly comprising of the furnished interiors of the houses. Comprising of mainly Apartments and Villas. Here I worked with a team of 7-8 people through out the projects under the supervision of the team lead. Carefully and precisely designed interiors and furnitures of the houses as per the requirement of the client. Designed interiors as per the the clients requirements such as apartments for bachelors, entrepreneurs and villas for families etc. Worked on many challenging projects and learnt furniture modelling for the first time. The role lead me to develop multi tasking, priority management and time management skills as the team was continuously engaged in multiple projects with short deadlines.

EXPERTISE

WORK EXPERIENCE

Senior Visualizer

2019-2020

Arch NSA

I starting working here as a Senior Visualizer without a team but in the coordination with different departments such as Auto Cad, Civil Engineers, Architects. I was the sole responsible for creating and designing of the exterior and interior of different projects such as commercial and residential properties on large scales. It was the first time I was solely responsible for the interior and exterior of the projects with in depth detailing of the projects including lights, colors of the walls, textures, roads and environmental scenery with prominent features. This was the first time I was solely responsible to deliver the queries from the different departments with in the given time. The experience here lead me to develop many skills such as attention to detail, time constraint performance, coordination.

Senior Visualizer (Team Lead)

2020-2024

PIXARCH

I worked here in a team and as a team lead as well comprising of 8+ members. As a team we were responsible to work on many International projects such as “ Nesaj Townhouse, Al-Khobar, Retal Residence, Al-Khobar, Rafal Residence, Riyadh, Al Marsa, Al-Khobar ” from Saudi Arabia. Many projects from Dubai and United States were delivered as well. We were the key responsible team to create complete 2D and 3D animation for the mentioned projects which includes Walkthrough, Interior and exterior views. Also we were handed several minor projects from King Fahad International Airport Dammam which includes Dome of the King Fahad Airport Mosque. Furthermore, As a team lead I was responsible to manage and deliver the projects in timely manner. I was responsible to divide the team in to parts and handover the projects accordingly and allot duties to the members respective of their expertise. I would supervise them, assist them, correct them when needed, cross communicate new ideas with them, and quality check the final rendered data. Meanwhile keeping continuous correspondence with different departments on their queries. At the end of the day I would discuss further plans and editions if required for the next day. I was responsible to lead and assist the team and make sure the projects are delivered in the given time frame. As a team leader I had also new experiences such as Introduction to new techniques and softwares such as Lumion and Sketchup. Also, I was able to enhance my proficiency in 3D tools such as Autodesk, Maya, 3D StudioMax and softwares such as Adobe Creative Suite 5 or higher, primarily Illustrator and Photoshop.

Senior Visualizer

2024-2024

IDesign

I worked here alone as a senior visualizer without a team. Worked solely from start to end of the projects on exterior and interior mainly comprising of commercial and residential properties on large scales. Improved my skills as a sole responsible to deliver the project from scratch. Here I further

WORK EXPERIENCE

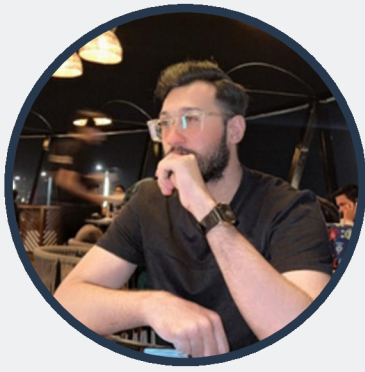

improved my skills on 3D Max, Vray, Corona and Lumion Basic. Here I Designed the exteriors of malls and residential apartments on large scales with multiple additional requirements from client. Worked solely on multiple projects under short dead lines which enhanced my priority management skill, time management, stress management skills and many other. Working solely on multiple projects at once allowed me to enhance my software and attention to detail skills as well as I had to quality check my own work and find out hidden mistakes and improve them which helped me boost my visualizing capabilities.

Senior Visualizer

2017-present

Freelance

Working presently as a senior visualizer since 2018 and delivered many projects since then. Collaborated with various architects and visualizers for assistance and dividing the work load. Created and managed small teams on frequent basis to deliver the project with in deadlines. Worked with various clients from across the globe from different cultures with various challenging and diverse requirements. Different cultures and backgrounds helped me broaden my visualizing capacities due to transformation of different ideas and verbal explanations in to visualization. Working as a freelancer helped me stay updated on the industry trends and understand different trends in different parts of the world. The journey as a freelancer helped me boost my core skills required for a successful visualizer.

To whom it may concern

sheikhghazanfar8876@gmail.com

Dear Sir/Ma'am,

Al-Khobar, Saudi Arabia

I'm currently looking out for a position as 3D Visualizer. I hold a extensive experience of 7 years where I worked in many different companies and with various different clients from all over the globe which gives me a extensive knowledge and set of skills required to be a successful and a fruitful visualizer. In my vast experience I have worked with many teams and lead many teams as well and delivered successful projects in every tenure of my experience. I recently lead a talented team at Pixarch where I have honed my skills in rendering, lighting, texturing, and post-production to deliver exceptional visual outcomes. Also, I have worked on many national and international projects requiring different level of understanding and expertise in each of them.

I believe my creativity, technical expertise, and leadership skills would be a valuable asset to your team. I have been recognized with an appreciation letter for my ability to consistently produce high-quality renders, particularly through my mastery of lighting and texturing techniques. Additionally, my experience as a Senior Visualizer at multiple companies has further strengthened my adaptability, time management, and decision-making skills, enabling me to successfully manage teams and meet project deadlines. I am punctual, task-focused, and driven by challenges, always striving to ensure that both the artistic and technical aspects of a project align with the client's vision

At Pixarch, I have had the opportunity to work on a wide variety of high-profile projects across multiple regions, including Al Khobar, Dammam, Riyadh, Dubai, and the USA. These experiences have equipped me with the ability to adapt to different architectural styles and client expectations, while consistently delivering top-tier visualizations. I take pride in my ability to handle complex projects, meet deadlines, and exceed client expectations, all while managing a talented team of visualizers.

I am confident that my combination of technical expertise and leadership abilities will allow me to contribute effectively to your team. I look forward to the opportunity to discuss how my skills and experience can contribute to the success of your team.

Thank You for Considering my application.

Sincerely,

Sheikh Ghazanfar Ali
